

Health and Safety update for our members, guests and our staff

For the management of the Tamworth Golf Club, protecting the health and safety of the members, guests, staff and the environments in which we socialise and work is of utmost concern. To ensure we comply with the current health authorities to ensure we are doing our part in reducing the opportunity for infection we are putting the following guidelines in place:

What you can do to help?

- We request that all patrons of the club evaluate their own health and the health of the people they have been in contact with
- We ask that you stay at home if you are feeling unwell even if the symptoms are mild
- You must not attend the club if any of the following apply:
 - You have visited or transited through the following countries in the last 14 days (China, South Korea, Iran, Italy, USA, Germany or France)
 - You have or have been in close contact with someone who has been diagnosed with COVID-19
 - Displaying symptoms of COVID-19
 - You have been directed to self-isolate

Recommendations whilst at the venue as per the World Health Organisation:

- Maintain strict handwashing regime with soap or alcohol-based hand wash
- Maintain at least 1 metre distance between yourself and anyone coughing and sneezing
- Avoid touching your eyes, nose or mouth
- Cover your nose with your bent elbow or tissue when you cough or sneeze. Immediately dispose of the used tissue if used
- Do not shake hands

In addition to the above, we have already put in place the following safety measures at Tamworth Golf Club:

- Enhanced arrangement for workplace health and Hygiene.
- Increased frequency of cleaning throughout the club E.g. POS, CRT, ATM's, Pulse Terminals, door handles and a like.
- Increased frequency of cleaning all touch points throughout the club.

Assuring you we are taking this serious:

The management wants to assure you that we have had no cases of COVID -19 at the club and are at very low risk of this virus hitting the Tamworth Golf Club however it is very important that the members and the guests make sure they adhere to the above guidelines so this continues to be the case.

We also want to assure you we have put in place a process where by any of our staff if they present any symptoms a listed above will be required to self-quarantine for 14 days or be tested and cleared of COVID-19 before they come back to work.

At this stage we want to assure you all of the continuity of our services, that we have contingency plans in place and have increased our already 5-star hygiene standards and request that all customers adhere to these same guidelines.

Thanks for your cooperation.

Andrew Graham
CEO
